Dear Sir,

With reference to the proposal RP/GATE/2021/13, DATED: 03/06/2021, we are pleased to approve the research project on "Solar Street Light with Auto Intensity Control". We believe that this project has significant potential for advancing the field of renewable energy. The project shall be completed within 7 months from the date of approval order. The analyses of the funds and terms & conditions are noticed in page No. 2.

The research work shall be carried out with the following objectives:

- Conduct a literature review on solar street light and their performance.
- Develop a model of a solar street light and analyze its performance under different weather conditions and time periods.
- Analyze the energy output and efficiency of the solar street light, as well as its economic feasibility.
- The research work order shall be conducted in accordance with ethical and professional standards.
